Title: Sidewalks

Geospatial Data Presentation Form: vector digital data

Online Linkage:

Description:

Abstract:

The planimetric dataset includes 10 different map layers digitized directly from York County's orthophotography. The sidewalks layer shows sidewalks in residential as well as other areas. The layer was originally digitized from the 1:1200 scale mylar orthophotography flown in February 1990. It was updated in 1995, 1997, 1999, 2002, 2005 and 2007 with digital orthophotos using heads-up digitizing. The sidewalks layer will be updated as new digital imagery is acquired.

Purpose:

Provide location of sidewalks for mapping and analysis, including impervious surface analysis.

Supplemental Information:

Sidewalks were originally digitized from the 1:1200 scale mylar orthophotography flown in 1990. Original digitizing took place between 10/1992 and 12/1994 as part of the planimetric digitizing project.
