

# COUNTY OF YORK

## MEMORANDUM

**DATE:** November 5, 2019 (BOS Mtg. 11/19/19)

**TO:** York County Board of Supervisors

**FROM:** Neil Morgan, County Administrator 

**SUBJECT:** Award of Coast Guard Force Main Replacement Project

### BACKGROUND

During the design of a dredging project for the Yorktown Coast Guard Training Facility, the U. S. Army Corps of Engineers recommended the replacement of the existing ductile iron force main crossing the mouth of Wormley Creek. The forcemain path runs from the Yorktown Coast Guard Station under the mouth of Wormley Creek up to Waterview Road. The project is in the previously adopted Capital Improvement Program.

### PURPOSE/APPLICATION

This project involves the installation by horizontal directional drill (HDD) of a 6-inch HDPE force main under Wormley Creek near the entrance to the York River and the U.S. Coast Guard Training Center in York County, Virginia.

The County issued an Invitation for Bids and received two responses. Shaw Construction Corporation, the lowest responsive and responsible bidder, bid \$700,106 [The other bid was \$1,249,000]. Shaw Construction Corporation has completed several construction projects for the County of York and is most suited for this type of job, with emphasis on horizontal drilling. The Substantial Completion for this project is 45 Days and the Final Completion is 60 Days from the Notice to Proceed.

### RECOMMENDATION

I recommend that Shaw Construction Corporation be awarded a contract for Coast Guard Force Main Replacement Project. The FY2020 – FY2025 adopted Capital Improvement Program designated \$500,000 for the project. The remaining funds will be transferred from the Utilities Sewer Line Rehabilitation Capital Improvement Project.
