## Summer Science Books - Illusions

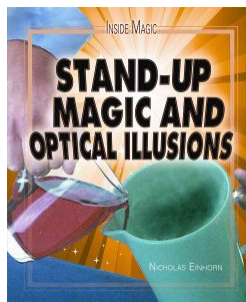

### Look again : secrets of animal camouflage by Steve Jenkins

Introduces young readers to some of the stealthiest camouflaged animals in the natural world and asks them to seek out these animals hiding in plain sight

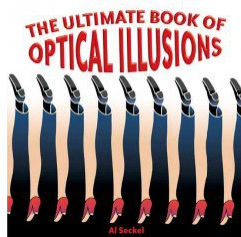

### Hard-to-see animals by Allan Fowler

Illustrations and brief text describe how different animals use their coloring to blend into their surroundings

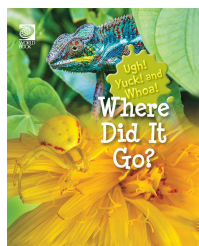

### Stand-up magic and optical illusions by Nicholas Einhorn

Provides instructions for magic tricks suitable for a large audience, and examines the ways the mind can play tricks through optical illusions

### The ultimate book of optical illusions by Al Seckel

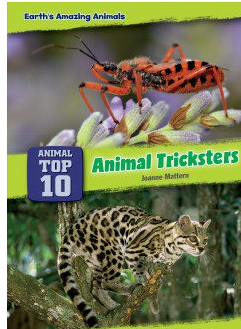

Prepare to be amazed! Inside the covers of this incredible, colorful collection are hundreds of the world's most powerful optical illusions. They're beautiful to behold, and stunning in their trickery.

### Ugh! yuck! and whoa! : where did it go? by Grace Guibert

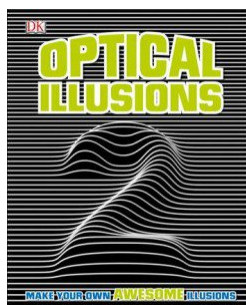

Describes methods of camouflage and mimicry used by leaf-tailed geckos, snowy owls, orchid mantises, and other animals.

Includes large photographs and relevant information about each animal presented

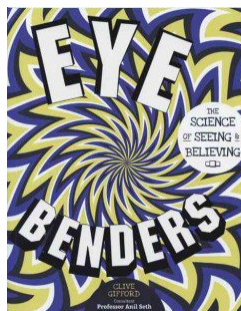

### Animal tricksters by Joanne Mattern

In the animal kingdom, survival is the name of the game--and not everything is as it seems. A number of animals rely on particularly clever tricks to fool predators or prey.

### Optical illusions 2 by Inc. Dorling Kindersley

Presents famous optical illusions and examines the science behind them

### Eye benders by Clive Gifford

Presents examples of optical illusions and discusses how they happen by looking at how the brain and the eyes work together
