

**Division of Building Safety**

**Statement of Energy Code Compliance HVAC Duct Sealing**

Address: \_\_\_\_\_

Owner: \_\_\_\_\_

Mechanical Contractor: \_\_\_\_\_

Installer: \_\_\_\_\_

I will be using the following method of compliance for HVAC duct sealing as required by Section 403.2.2 of the 2015 Virginia Energy Conservation Code (VECC) and Section 1601.4.1 of the Virginia Residential Code (VRC):

\_\_\_\_\_ I will perform a Post Construction or Rough-In duct tightness test (duct blaster) and supply the prescribed test results for verification with Section 403.2.2.1 of the 2015 Virginia Energy Code, (VECC), prior to my final Mechanical inspection.

\_\_\_\_\_ I will use a method prescribed in Section 1601.4.1 of the Virginia Residential Code (VRC), to seal all joints of the duct system and provide documentation that the material used is suitable for such use.

\_\_\_\_\_ I will make arrangements with the Building Department to use a Third Party Inspection process. The Third Party Inspector shall submit a report of compliance to the Building Department prior to the request for the Final Mechanical Inspection. The report of compliance shall state the date and time the inspection was performed and completed, the specific method of compliance listed above that was used, any and all test results or material documentation and who/whom performed the inspection.

A COPY OF THIS CERTIFICATION SHALL BE PERMANENTLY KEPT BY THE FURNACE OR INTERIOR AIR HANDLER.
