COVID Connection: Your Link to the Latest Updates

York County is actively maintaining its [COVID Connection website](#) to share with you the latest information on the virus and vaccines. The page has a new look and improved navigation with links to regional messaging, Virginia Department of Health (VDH) local registration and contact information, and more. Check back often for regular updates.

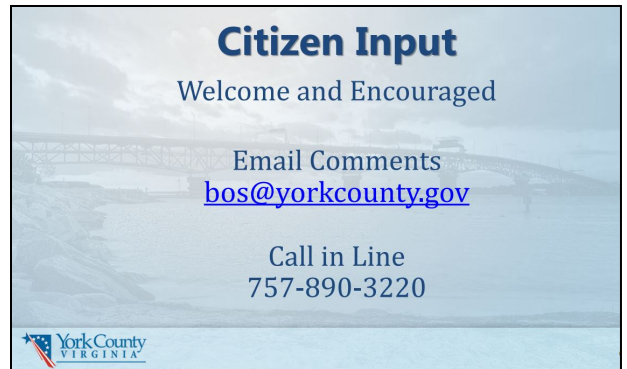

Many members of the public have expressed their frustration over the vaccine rollout and we share their frustrations! The VDH is responsible for administering the vaccination and York County is doing what it can to assist in the process. We are working with our regional partners and hospitals to identify and establish vaccination clinic sites and to register volunteers who can work these clinics once the vaccine is received. **VDH-Peninsula Health District has a [registration portal available for those 65 and up](#)** to sign up for notification once the vaccine is available. Also, you can register by calling (757) 594-7496. Note: Those age 75 and up are being scheduled for vaccinations due to a higher risk of infection, while those aged 65 to 74 may wait three to four weeks before they are contacted for an appointment due to current vaccine supply.

York County Utility billing has **CARES Act funds available** to assist those who are behind on their bills due to Covid-19.
