

**COUNTY OF YORK**  
County Administration  
Division of Development Services

**TOURIST CORRIDOR MANAGEMENT OVERLAY DISTRICT**  
(SECTION 24.1-375, YORK COUNTY ZONING ORDINANCE)

**APPLICATION FOR PROJECT APPROVAL**

PROJECT NAME: \_\_\_\_\_ APPLICANT: \_\_\_\_\_  
LOCATION: \_\_\_\_\_ ADDRESS: \_\_\_\_\_  
DATE: \_\_\_\_\_ PHONE: \_\_\_\_\_

**Applicability**

Requirements apply to properties with frontage on the following tourist corridors. The special requirements apply to all proposed new construction or modification of existing construction located within two hundred fifty feet (250') of the rights-of-way or, in the case of properties deeper than 250 feet to the rear property boundary or 500 feet, whichever is less.

- Interstate 64 and any frontage roads (F-xxx) that abut and run parallel to I-64
- Route 199 (both east and west segments)
- Richmond Road (Route 60); Bypass Road (Route 60)
- Pocahantas Trail (Route 60); Route 132
- Merrimac Trail (Route 143) west of Queen Creek
- Second Street from Merrimac Trail to the City of Williamsburg boundary line
- Colonial National Historical Parkway
- Goosley Road (Route 238) east of Route 17
- George Washington Memorial Highway (Route 17) north of Cook Road
- Cook Road (Route 704), but excluding the east side of the road between Route 17 and Old York Hampton Highway (Route 634)

**Submittals and Attachments**

The following items must be submitted with this application, either individually or as an element of the Site Plan submittal. Please check the appropriate boxes to indicate how the information is being provided.

Attached see Site Plan

- Architect's or artist's rendering (or photo-simulation / computer-generated graphic) of all proposed structures depicting the front, side and rear elevation including architectural treatment of all structural exterior facades to be visible from an external roadway, and including indication of building materials and colors to be utilized.
- Rendering (or photo / graphic simulation) of the landscape treatment in perspective view depicting parking areas visible from public road. If appropriate, this rendering may be combined with the above requirement.
- The location and design of all proposed exterior site lighting within the proposed development.
- Photographs or drawings of neighboring uses and architectural styles.

## **Tree Protection**

No living, disease-free tree of any species having a trunk caliper of eight inches (8”) or larger shall be cut, destroyed, moved or removed unless and until final approval of site plans or subdivision plans depicting the extent of such actions.

## **Architectural Standards**

TCM design guidelines are listed below and must be observed in the design and layout of development proposals. Please check the appropriate box to indicate whether or not each guideline has been observed and for any “No” responses, provide an explanation as to why it has not been observed.

Yes  No  N/A      Any large work area doors or open bays will be located so as not to open toward or face external rights-of-way.

Yes  No  N/A      The site and building will be designed so that none of the following will be visible from the TCM right-of-way: heating, ventilating and air conditioning equipment, duct work, air compressors, other fixed operating machinery, large trash receptacles, dumpsters, utility meters, above ground tanks, satellite dishes, antennas, etc.

Yes  No  N/A      Fencing in front of buildings will be avoided or minimized and, if installed, will be of a style harmonious with adjacent development and screened by landscaping to minimize visibility. Security or screening fencing required by the Zoning Ordinance will be buffered from direct view by landscaping.

Yes  No  N/A      Building facades parallel to or highly visible from a public right-of-way will not be constructed of barren or unfinished concrete masonry (cinder block), corrugated material, sheet metal or vertical metal siding. Acceptable materials include: brick, split-faced block, dryvit or EIFS, steel-surfaced/pre-finished insulated dimensional wall panels, pre-formed simulated brick or architectural block panels, or wood or synthetic clapboard siding (circle material(s) proposed). If other materials are proposed to be used, please describe in detail:

---

---

Yes  No  N/A      Front-facing building facades greater than 50 feet in width will incorporate wall plane projections, recesses, or bay divisions extending at least 20% of the façade length.

Yes  No  N/A      Architectural details such as foundation highlights (belt courses, water tables), lintels, sills, awnings, contrasting cornices or bands of material at the first floor or roof level, projections at entries, wall and roof articulations, bay divisions, and other architectural treatments will be used to create visual interest.

Yes  No  N/A      Rooflines on large-scale buildings will be broken with features such as hips, gables and dormers.

Yes  No  N/A      Flat-roofed structures will include parapet walls or other treatments to shield direct views of the roof deck or roof-mounted mechanical equipment.

- Yes  No  N/A Not more than three (3) colors will be used on the building exterior (excluding roofs and tinted/reflective windows). Building colors have been selected from (check all that are applicable and identify by reference number and color name):  
\_\_ Martin Senour Williamsburg Collection – **Exterior** Palette  
\_\_ Sherwin Williams Preservation **Exterior** Palette  
\_\_ Benjamin Moore Historical Collection Palette – **Exterior**  
**(Note: color matches from other paint brands are permitted)**
- Metallic colors, black (except as an accent or trim color), or “fluorescent colors will not be used.
- Yes  No  N/A Any canopies (gas station, bank, fast-food, etc.) will be designed to include roof forms, materials, colors and architectural treatments that are integrally related to and complement the primary building design and features.
- Yes  No  N/A Canopy lighting will be recessed into the ceiling or framework.
- Yes  No  N/A Building lighting is recessed under roof overhangs or generated from concealed source, low-level light fixtures.
- Yes  No  N/A Site lighting will be from a concealed source (bulb not visible) and of a clear white or amber light that does not distort colors.
- Yes  No  N/A Site lighting fixtures or devices will be directional or cut-off type capable of shielding the light source to provide well-defined lighting patterns and keep the spill-over from adjoining properties, buffers, highways, and avoid impairing in any way the vision of motor vehicle operators.
- Yes  No  N/A Exposed neon (gas-filled) tubing will not be used on exterior building surfaces or signs.
- Yes  No  N/A Free-standing sign will be a ground-mounted monument type.
- Yes  No  N/A Freestanding sign will not exceed 96 square feet in area for shopping centers or thirty-two square feet (32ft<sup>2</sup>) for all other uses.
- Yes  No  N/A Freestanding sign will not exceed fifteen feet (15’) in height for shopping centers or ten feet (10’) for all other uses.
- Yes  No  N/A Signs will not consist of colors commonly referred to as “neon” or “fluorescent” and which are unnaturally bright shades of red, orange, yellow, green, or blue.
- Yes  No  N/A Outdoor storage areas will be screened so that they are not visible from public rights-of-way, internal roadways, and adjacent properties.
- Yes  No  N/A For developments established after May 17, 2005 vehicles licensed as “trucks” by DMV and kept on the site will be screened as required for “outdoor storage”.

TCM Overlay District Application

Yes  No  N/A

Ten percent (10%) of the parking areas will be devoted to landscaped islands.

Yes  No  N/A

Any surface parking within forty-five feet (45') of a public road right-of-way will be screened from direct view from the public road by shrubbery and earthforms.

Yes  No  N/A

Site landscaping will be designed to blend the architecture of structures on the site with the natural landscape and character of the surroundings.
