As the weather continues to warm up, the **Yorktown Beach** is seeing more and more people enjoying time in the sun and on the sand. Getting a Green Light at Busy Mooretown Road Intersection

The traffic light at the intersection of Mooretown Road and Bulifants Boulevard is now ready to go live! Previously a two-way stop, drivers found it challenging crossing Mooretown Road from Bulifants at certain times of the day. The County has been instrumental in getting this intersection signaled and residents and business-owners will be happy to see the lights become fully operational on Tuesday morning (4/5). Safe travels!

We're Ready for Mosquito Season

Our staff of Mosquito Control have been working year round to eliminate areas where mosquitoes breed and also to help educate the public on what can be done to reduce the nuisance at their homes. One way to do this is to request a home inspection where staff visit your location and identify areas of standing water or prime habitats where mosquitoes may be breeding. Staff will discuss what they find with you and also make recommendations on steps to take to reduce these flying pests. Call Mosquito Control at (757) 890-3790 to request a home inspection. Additional information on the activities of this division are available on the [website](#).

Great Volunteers and Great Numbers from Great American Clean Up
