

COUNTY OF YORK

MEMORANDUM

DATE: April 5, 2023

TO: York County Board of Supervisors

FROM: Neil A. Morgan, County Administrator

SUBJECT: Charles Road Well Integrity

As a follow-up to your concern about well integrity at the April 4, 2023 meeting, a brief meeting with staff knowledgeable on the subject of residential wells leads us to believe that barring an environmental issue, the option to drill a new well on the owner's property or extending the depth of the current well is a viable option. The staff has agreed to meet with the owner to explore these options. If you have any additional concerns or comments, please let us know.
