

# COUNTY OF YORK

## MEMORANDUM

**DATE:** February 29, 2024

**TO:** York County Board of Supervisors

**FROM:** Mark L. Bellamy, Jr. County Administrator 

**SUBJECT:** Notification of Certain Procurements: Baptist Road Pump Station: pump and accessory replacement

In accordance with the Board's policy for the procurement of items in the County's approved Capital Improvements Program (CIP) involving the procurement of goods and services costing between \$50,000 and \$100,000, or when otherwise stipulated by a prior resolution, the staff is to notify the Board of such actions.

The County is rehabilitating the Baptist Road pump station to handle increased sanitary sewer flows. In the event that the station fails or the influent flows become too much for the station pumps to handle, the diesel-powered backup pump will automatically run.

The County is utilizing a cooperative contract through the HGACBuy cooperative agency. The procurement method meets the requirements of the County's purchasing ordinance. An order was placed with Xylem Dewatering Solutions, Inc. for the purchase of a pump and required accessories for the project in the amount of \$66,348.
