

UNITED STATES SENATOR
WASHINGTON, D.C.

February 28, 2024

Mr. Neil Morgan
County Administrator
York County
Post Office Box 532
Yorktown, VA 23690-4046

Dear Mr. Morgan,

I am pleased to extend my warmest congratulations to you and the employees of York County upon recently receiving the 2023 Innovation Award in the Environmental Quality category from the Virginia Municipal League.

This honor is a reflection of your team's dedication to finding creative solutions to challenges impacting the community. After 10 years of research, the partnership between York County, Hampton Roads Sanitation District, and DC Water led to the implementation of the Mainstream Partial Denitrification-Anammox process to efficiently remove a significant amount of nitrogen from wastewater. The success of this project serves as a strong example to communities across the Commonwealth of the positive outcomes that can occur through collaboration. I commend you for your vision and determination.

On this important occasion, I am very pleased to join with your families, friends, and community in saluting York County's accomplishments and wishing you continued success.

Sincerely,

MARK R. WARNER
United States Senator
