I am so honored and impressed. Today Capt. Mike Stinson of the Yorktown Fire Department called to check on me.

He gave me his number and said to feel free to call him if I need anything. There are still people who care in this world.

That 5 minute call makes my day!😊

From the son of one of our patients.

"I want to thank you guys. Caring for an 80-year old man has presented more and more challenges and your EMS crews have been called upon more frequently than we wanted.

They could not be more responsive, courteous, professional, and experts in their profession. The crew that routinely arrives should claim us as dependents when they file their taxes with all of the time they have spent here lately.

If the circumstances were different, I'd ask them to hang out and I would grill them some steaks (those dudes are big). I also want to thank the Chief (*NOTE—we--FLS suspect this is referring to our Mobile Integrated Healthcare Captain—Mike Stinson*),

who followed up after a couple of calls just to see how everything was going and even helped track down my dad's whereabouts when the hospital couldn't. He didn't have to do that, it was most expected, and supremely appreciated.

I have lived all over America, had nothing but outstanding experiences with first responders, but I have never experienced such a bond between like York County first responders (YPSO 100% included) and the community.

You are heroes in more ways than you know. Thank you!"

Thanks,
Steve
