PORTION OF PENNIMAN ROAD TEMPORARILY REDUCED TO SINGLE-LANE OF TRAVEL DAILY FOR UTILITY WORK IN YORK COUNTY

Flagging operations in place each day to alternate each direction of traffic for next several weeks starting as early as April 15

YORK COUNTY — As early as April 15, contractor crews with the Virginia Department of Transportation (VDOT) will reduce traffic to a single-lane each day on a portion of Penniman Road (Route 641) between Alexander Lee Parkway and the Government Road/William Carter Road intersection in York County for utility work related to the Penniman Road Improvements Project. Alternating one-way traffic under flagger control will be in effect weekdays from 8 a.m. to 4 p.m. for the next several weeks.

In addition to these daytime closures, the previously existing full closure of Penniman Road to through traffic between Government Road/William Carter Road and Fillmore Road remains in place. The full closure of this portion of Penniman Road is estimated to be in place through as early as summer 2024. The signed detour directs motorists traveling west on Penniman Road to turn left onto Government Road, then right onto Oak Drive before turning left onto Penniman Road. The route is reversed if traveling east on Penniman Road near Fillmore Road.

Access to all private property will be maintained at all times.

All work is weather- and schedule-dependent; therefore, this schedule is subject to change.

Over the course of project construction, motorists can anticipate additional flagging operations, single-lane closures and period of full closures for portions of the corridor as needed to complete the Penniman Road Improvements Project estimated to be complete as early as summer 2025.

For additional information on the project, visit the project webpage at <https://www.vdot.virginia.gov/projects/hampton-roads-district/route-641-penniman-road-roadway-improvements-project/>.

Traffic reduced to single-lane of travel daily with flagging operations on Penniman Road (Route 641) in York County
