

# COUNTY OF YORK

## MEMORANDUM

**DATE:** April 16, 2024

**TO:** York County Board of Supervisors

**FROM:** Mark L. Bellamy, Jr., County Administrator

**SUBJECT:** International City/County Management Association Conference - Boston

Tim Wyatt, Director of Information Technology, and I recently attended the International City/County Management Association Conference in Boston. The conference theme was "Local Government Reimagined," focusing on the necessity for innovative strategies to tackle the changing landscape of challenges in local governance. It focused on artificial intelligence and highlighted its potential benefits for local government functions. It also emphasized the importance of embracing technological advancements to meet communities' evolving needs.

Some of the sessions from the conference included topics such as:

- Dispelling Myths and Optimizing Outcomes of AI Solutions
- AI and Public Benefits
- Building an AIU Plan: Constructing a Framework and Use Case
- Navigating the Known and Unknown in AI - Guidelines, Policies, Applications for Public Managers
- Cutting through the Noise: Community Engagements in a Hybrid World
