AGENDA TOPICS:

1. The CAC donated books to the Virginia Peninsula Regional Jail. The donation was initiated by Bobbie Saunders, a Body by D member, who works in the facility. Chairman Wright personally delivered the books to the facility. (Picture is attached.)

2. CAC members participated in the grand opening of the new York County Law Enforcement Building beginning at 4pm on May 20. A ceremony and ribbon cutting to dedicate the facility included former YPSO Sheriff and current Senator Danny Diggs, members of the Board of Supervisors and other York County government officials, including Commonwealth's Attorney Krystyn Reid.

Members, as well as other citizens, toured the new facility, noting the architectural attention to detail and the extensive planning that provided maximum interaction, safety, and efficiency by deputies and other employees. Of particular note were the well-equipped gym, the evidence room that ensured security for evidence, the crime simulation room that provided opportunities for deputies and other employees to prepare for face to face interaction, and the room in which DUI suspects were processed.
