Subject: [EXTERNAL] Re: Citizens need HELP -- Springfield Road

The Springfield Road situation is a tragedy. The county administration and BOS must find the moral strength to resolve this issue. VDOT informed the county that this road was substandard and yet they proceeded with the approval. The residents on Springfield Road are being asked to endure this injustice for five years or thereabouts. The developers should voluntarily restrict their hours of construction traffic along the road and or widen the road and any additional adjustments needed. Thanks.

Apologize for second email - many of you said you could not open link. Here is message from Springfield Road resident:

"Every morning we have a line of vehicles getting into Tranquility. These vehicles block our road and driveways. We have many elderly people that may need EMS or our homes could be on fire. These commercial vehicles won't be able to move out of the way. Another failure on the County's decision to allow Springfield Road to be the construction entrance for Tranquility."

Hopefully this one

Good Day Sheriff Montgomery & Chief Kopczynski:

Please see update on the very sad Springfield Road saga, which continues in real-time:

I'm receiving lots of feedback, and will spare you some of the fiery discourse, and simply ask some rudimentary questions (which have yet to be satisfied):

- Where is the enforcement here?
- Why are there no fines levied nor tickets nor summons issued?
- Why are building permits allowed to continue with no negative consequences?
- Is this NOT the purest definition of a "public safety hazard"?? (please see video if it loads). All our media contacts say, "show us evidence". WELLLLLLL, here you go:
<https://www.facebook.com/100006408644001/videos/2521222684>
- When will this onslaught on these sweet peoples' neighborhood cease?
- WHO will step forward and give a voice to the voiceless?

Please advise...

May I suggest that you raise this at **tomorrow evening's BoS meeting**. Apologize that my schedule does not allow appearance, or I would "carry my own water" (pun intended, Chief Kopczynski !) and give a FULL 3 minutes on this issue created by County Supervisors. Their unintended consequences are the "direct cause" of this vociferous outcry...

Thank you as always for your Service.

With Sincerity and Respect,
Steve
