Chief Kopczynski, I’m writing to commend several of your firefighter for great service. This week I came down with COVID which triggered an A-FIB instance which led to me having my heart rate double to 155 BPM while I was sleeping. This awoke me and I called 911. One of your great crews from Station 1 responded and took me to Riverview for treatment. I recall the driver was Sean Navin and the attendant in charge was William LaDoucer. They were both terrific! They were caring and professional and safely brought me to Riverview for successful treatment. Both of them are a credit to your department!

On another note, while I was waiting in the very busy ER one of your captains recognized my name from my CERT training and was kind enough to look in on me while he was there. I’m embarrassed that I can’t recall who he was – he was masked and I was sort of out of it – but I think he was from Station 1 and over in the ER checking on the quality of his service, again an instance of your team going over & above to support your county!

Please pass my thanks to all of them,
