

COUNTY OF YORK

MEMORANDUM

DATE: October 23, 2024

TO: York County Board of Supervisors

FROM: Mark L. Bellamy, Jr., County Administrator 

SUBJECT: Extent of Tree Removal for the Victory Boulevard Shared Use Path Project

I wanted to update you on the status of the VDOT-administered Victory Boulevard Shared Use Path project (Project No. 119281), which is currently in the design phase. The project will require tree removal along the project corridor.

Due to the increased impervious areas, with the creation of the shared-use path from North Bowman to Big Bethel Road, a number of narrow but elongated BMP structures will be required along the route of the project. The construction of the shared-use path along Victory Boulevard, from North Bowman to Big Bethel Road, will result in an increase in impervious surfaces. As a result, several narrow, elongated Best Management Practices (BMP) structures will be necessary along the route to manage stormwater runoff.

The attached color-coded plans indicate the areas where tree canopy will be removed, highlighted in green. The path's alignment varies along the corridor, shifting closer or farther from the roadway as needed to avoid the proposed BMP facilities while preserving trees when possible. While the path moves closer and further from the edge of the roadway, it is doing so to circumvent the locations of the proposed BMP facilities.

Please let us know if you have any questions regarding this project.

Mertz-Guinn/3785
