FY2026 Budget Question/Comment Form

What question(s) would you like to ask regarding the FY2025 Budget?

Is there funding available for road repairs on Maple Road and Dogwood Road?

A few years ago the request for widening was shut down and since that time Baptist Road has had multiple patch jobs but there a holes and dips on these other roads that are not new, haven't been touched and are hazardous to vehicles.

What comment(s) would you like to leave regarding the FY2026 Budget?

Thank you for taking the time to consider the above request/issue. Your time is greatly appreciated.

FY2026 Budget Question/Comment Form

What comment(s) would you like to leave regarding the FY2026 Budget? We need enhancements to the Yorktown beach waterfront; not county office buildings.
We need some relief from car and real estate taxes.
The office of economic development of York County shouldn't be giving companies free land and forgiving taxes unless the BOS plans on helping all of the residents also.

FY2026 Budget Question/Comment Form

What question(s) would you like to ask regarding the FY2025 Budget?

1. How can Tom Sheppard be removed from the Board - I am tired of him spending my tax dollars on his personal projects.
2. Since we are such a wealthy county, how can the county residence receive a reimbursement for all the property tax that we had to pay in 2024?
ALL County officials work for the residence and NOT the other way around.

What comment(s) would you like to leave regarding the FY2026 Budget?

Main Comment: Lower the real estate taxes. The assessments and taxes in 2024 was unreasonable. It does not make since that this county does NOT charge taxes for Boats but overcharge for houses and property - this is wrong. Stop giving board members and other public officials so much freedom to spend our money. This should be limited to \$10,000 max. period. By eliminating the members ability to freely spend tax dollars without oversight and approval, this county can remain wealthy while reducing our taxes.
We need better oversight on the county spending. We do NOT need to build a new administration building in Yorktown looking over the water - build it someplace less expensive / less marketable and then sell / use that property so that ALL county residence can enjoy it.
Please do NOT use my tax dollars to pay for anymore loans for private businesses or buildings. I want my money back.
Please consider using tax dollars for supporting the residence needs and wants. Police and Fire - NO more huge buildings, but maybe better training and compensation. School System - Need to get back to the basics that made York Schools so great. Eliminate some of the overpaid administration that are doing nothing to help the children learn and focus on the people doing the work - the teachers. Teachers need to be supported by the administration, need to be able to use their creativity,

knowledge and experience. All schools need to be held accountable for progress by using a standard (federal and state). Consider bringing back the SAT's. Add things that make us a community - more bike paths that lead to places (parks, restaurants, capital trail, etc.) Our economic development needs to please STOP approving low cost apartments, Vape Shops and other less desirable shops. - Lets approve things that will make this county look like a great place to live. And as stated above No more shady deals of paying for the development of private businesses unless it is an ironclad contract where the county (tax payers) can't loose their money to banks or property owners.

FY2026 Budget Question/Comment Form

What question(s) would you like to ask regarding the FY2025 Budget?

I understand that it has been recommended to raise the amount of money that board members can spend without approval just because the county has excessive funds available to them. ALL County employees should be limited to \$5000., \$10,000 max. They are wasteful and spend money without thinking about whose pocket it is coming from. Can someone please stop allowing this spending.

What comment(s) would you like to leave regarding the FY2026 Budget?

Please refund a percentage of the property tax that I have had to pay. I did not support using my taxes to help fund a brewery. This seems criminal. Stop spending my money personal projects. Please use existing county property more efficiently. Using waterfront / Waterview property for additional government buildings is a waste of available commercial property.

Please try to do some of the things that the county residence have asked for in the past - Safe bike trails maybe something that connect to the capital trail. Also consider doing things that will make people want to live here. NO More apartments! Bring in a quality restaurant at the waterfront - no more bar food. And most importantly. Improve our schools. Bring back the SATs so that we have a way to measure real progress, let the teachers teach and support them. Push back on parents and tell them that this county produces well educated students (SAT scores to prove it) and if they want their child to be successful then they need to support their teachers and not tolerate poor student or parent behavior. Lastly, stop spending my hard earned money on your special projects that do not benefit me- the york county home owner.
