

Hampton and Peninsula

HEALTH DISTRICTS

We proudly serve the Cities of Hampton, Newport News, Poquoson & Williamsburg and the Counties of James City and York.

HAMPTON & PENINSULA HEALTH DISTRICTS' INITIATIVES

OUR LATEST INITIATIVES

- The HPHD has entered into an agreement with the **DOD SkillBridge Program** which supports service members transitioning into the civilian workforce by providing training and on-the-job experience. We look forward to hosting and working with individuals in the program!
- The HPHD **Internship Program** aims to equip students with invaluable insights into public health policy, epidemiology, health education, and community outreach while contributing to initiatives that promote healthier lives for our district.
- HPHD will begin offering **Literacy for Life** classes to our community members. Literacy for Life empowers individuals to think differently and ask the right questions about their health, improve patient safety, and take pre-emptive action in improving overall health and well-being.
- HPHD has been providing **AVERT** (Active Violence Emergency Response Training) since July 2024. AVERT is **active shooter response training** with techniques to stop the bleed of victims. This training equips individuals with the tools to recognize warning signs, react quickly in an active shooter situation, and learn how to control bleeding in life-threatening situations. Three HPHD staff have been invited to provide AVERT for VDH Central Office Staff and the Virginia Department of Emergency Management (VDEM)!
- HPHD developed the **Peninsula Community Hub**, an online collaborative space where organizations can share data, learn about upcoming workshops and trainings, and join discussion boards to talk about successes and challenges you currently face. Join the Hub today! .
- For a full list of services, please visit our website at <https://www.vdh.virginia.gov/hampton-peninsula/>

LEARN ABOUT OUR CHNA

The Peninsula Community Health Collaborative is conducting its Community Health Needs Assessment (CHNA). The CHNA is a collaborative initiative designed to gather input directly from residents, which will help shape community health improvement efforts and ensure that resources and programs align with the needs of our region. The survey is open to all residents through February 28, 2025. For more information and to participate, scan the QR code above for the 2025 CHNA!
