LONG-TERM SINGLE-LANE CLOSURES SCHEDULED ON VICTORY BOULEVARD (ROUTE 171) IN YORK COUNTY

Westbound closures on Victory Boulevard to include one travel lane between Hampton Highway (Route 134) and George Washington Memorial Highway (Route 17) and left-turn lane to George Washington Memorial Highway.

YORK COUNTY — Beginning as early as June 9, long-term single-lane closures will be implemented on Victory Boulevard (Route 171) for several weeks to allow for construction work in the median as part of the Virginia Department of Transportation's roadway widening project in York County.

The left westbound travel lane on Victory Boulevard between Hampton Highway and George Washington Memorial Highway will be closed during this work. Of the two existing westbound left-turn lanes from Victory Boulevard to George Washington Memorial Highway, the inside left-turn lane will also temporarily close. The outside left-turn lane will remain open to traffic.

Both closures are estimated to be in place through early July. All work is weather- and schedule-dependent; therefore, this schedule is subject to change.

Additional temporary eastbound single-lane closures will also be implemented as needed on Victory Boulevard between 9 a.m. and 3 p.m. and 8 p.m. to 6 a.m.

Construction began in March 2025 on the $4.6 million Victory Boulevard Widening Project, which is designed to increase vehicle capacity and help alleviate congestion through roadway widening and turn-lane improvements on Victory Boulevard between George Washington Memorial Highway and Hampton Highway.
