Mr. Mark Bellamy
County of York
PO Box 532
Yorktown, VA 23690

Dear Mark,

The York County Community & Regional Support Grant enables public and K-12 STEM Education Programming -a true gift to our community. Thank you.

Because of this grant support, the Virginia Living Museum continues to deliver natural science education to hundreds of thousands of learners and every guest who visits the Museum, and enables a science literate community.

Thanks to your continued support and investment in education, the Museum is able to welcome over 30,000 students annually, offer spring and summer camp programs for children ages pre-school through high school, and welcome students from 687 schools. The Museum made strides this past year to expand its educational reach, adding programs for pre-school-age early learners, and immersive STEM programming for middle and high school students that provide real-life career exploration.

Thanks to the County of York, the Museum continues to expand its reach and strengthen its relationship with additional local schools each year.

Please retain this letter as a receipt of your grant.
