

COUNTY OF YORK

MEMORANDUM

DATE: September 11, 2025
TO: York County Board of Supervisors
FROM: Mark L. Bellamy, Jr., County Administrator
SUBJECT: Barlow Road Pump Station Improvements

The County has awarded a professional services contract to AH Environmental to prepare the necessary construction documentation required for the upgrade of the Barlow Road sewer pump station.

Under this contract, AH Environmental will provide professional engineering services to develop complete construction plans and specifications necessary for the planned upgrades. As part of this effort, the consultant will prepare detailed pump station designs, produce construction drawings, and assemble bid documents that will allow the County to solicit competitive proposals from qualified contractors. These services are a critical step in moving the project forward and ensuring that the County can make improvements in a timely and cost-effective manner.

The upgraded pump station will improve system performance and prepare the County to accommodate anticipated future growth. This project reflects the County's ongoing commitment to providing high-quality public services, protecting public health, and supporting long-term community development.

A competitive Request for Proposals solicitation was conducted, resulting in the Board's approval of a contract with AH Environmental Consultants, Inc. for On-Call Sanitary Sewer Engineering services. In accordance with the adopted resolution, the Board is to be notified of any individual project exceeding \$100,000. A proposal was received from AH Environmental Consultants, Inc. in the amount of \$198,135 and the County is proceeding with the project. This notification is being provided in accordance with the Board's adopted resolution.
