Re: Appreciation for Fiscal Year 2026 Financial Support

Dear Members of the York County Board of Supervisors and County Administrator Mr. Bellamy,

The Colonial Soil and Water Conservation District Board of Directors extends our gratitude for your financial support during Fiscal Year 2026. Your investment in conservation programs demonstrates York County's commitment to your residents, environmental stewardship, and resiliency.

Your funding directly enables critical programs that state resources typically do not support, particularly the Virginia Conservation Assistance Program (VCAP) and educational initiatives. These programs provide essential conservation services that address stormwater management, protect water quality, and prevent soil erosion.

Local government support like yours is the foundation that allows us to maintain adequate staffing levels and efficient program administration. Without this partnership, many residents would lack access to professional conservation guidance and cost-share opportunities that make environmental improvements both feasible and affordable.

As we progress through Fiscal Year 2026, we remain committed to maximizing the value of your investment through prompt and professional service to York County residents. We welcome any questions about how these programs serve your constituents. Thank you again for your partnership in protecting and enhancing York County's natural resources for current and future generations.

Sincerely,

E. Wayne Davis

Chair, Board of Directors

Colonial Soil and Water Conservation District
