Curbside Recycling Returns to York County in January 2026

December 2, 2025

York County will resume curbside recycling service beginning the week of **January 5, 2026**. Some residents have a TFC-branded recycling can from the previous contractor. These cans will need to be replaced before service restarts. The County will collect TFC-branded recycling cans and deliver new York County branded ones during **the week of Monday, December 8, 2025**.

What You Need to Do:

- If your can has a TFC logo on it place your **recycling can** at the curb by **7:00 a.m. on Monday, December 8**.
- Leave the can at the curb all week (pickup may occur any time **Monday through Friday**).
- **Do not** place trash or recyclables in the TFC can.

No Action Needed If:

- You already use a **York County recycling can** — (no TFC logo on it) you will not receive a replacement and do not need to take any action.

What's Next

- **Curbside recycling resumes** the week of **January 5, 2026**.
- A **new pickup schedule** will be shared with residents prior to the restart.
- **Billing will update automatically**—no action is needed on your part.

“We appreciate the community’s patience and cooperation as we transition back to curbside recycling,” said County Administrator, Mark Bellamy. “This is a big step forward in our commitment to sustainability and environmental stewardship.”

For more information, visit <http://www.yorkcounty.gov/recycle> or call **757-890-3780**. Let’s work together to keep York County clean and green!

York County, Virginia—home to historic Yorktown and the victory that won America’s independence—serves its community with pride.
